Co-funded by the European Union

Fundacja Semper Art

about the project

CRAFTING EUROPE TOGETHER

Crafting Europe Together is an international Erasmus+ Youth Exchange that brings together young people from different European countries through creativity, handcraft and cultural exchange.

The project focuses on discovering traditional and modern handicraft techniques while creating a space for participants to learn from each other, share their cultures and express themselves through handmade art. Through practical workshops and creative activities, participants will explore different forms of crafts, develop new skills and discover how creativity can connect people beyond language and cultural differences.

Working in multicultural teams, participants will exchange traditions, ideas and good practices from their countries, creating unique handmade works together. The activities will promote cooperation, creativity, sustainability and the use of natural or recycled materials, while encouraging participants to appreciate the value of handmade products and European cultural diversity.

Through non-formal education, teamwork and intercultural learning, Crafting Europe Together will strengthen participants' confidence, communication skills and sense of belonging to a diverse European community. At the end of the exchange, participants will return home with new practical skills, international friendships and inspiration to continue using handcraft and creativity in their local communities and organisations.

about us

Fundacja Semper Art

The goal of the organization is to promote artists who, through their talents, dedication to developing their skills and craft, serve as an example to others.

They inspire, teach, and demonstrate how to navigate the path of learning, self-education, and brand building, leading to undeniable success in their fields of creativity. The organization brings together individuals involved in handicrafts from the Mazovia region. It supports local artists by organizing technical workshops, promoting their work, and providing individualized support based on their needs.
